

## **Tyco Marine Services Korea Wins Export Accomplishment Award for USD 5 Million Dollars from Korea Government**

**Seoul, South Korea – 26 December, 2007** - Tyco Marine Services Korea has won the Export Accomplishment Award for USD 5 Million dollars from the Korea government. The award recognizes Tyco Marine Services Korea's achievements in driving high volume exports for fire fighting equipment for vessels and off-shore plants to Fortune 500 companies worldwide. This award also signifies Tyco Marine Services Korea continual contributions to the country's economy and its key role in promoting international trade. This is the second award for Tyco Marine Services Korea which first received the Export Accomplishment Award for USD 3 Million dollars from the Korea government in 2006.

The Export Accomplishment Awards honor companies that contributed significantly towards increasing the country's exports to the world. Mr Hee-Beom Lee, Chairman and CEO of Korea International Trade Association said, "Tyco Marine Services Korea's sterling performance in increasing the exports from USD 3 Million Dollars to USD 5 Million Dollars in just one year is truly remarkable. They have demonstrated that great teamwork and a strong will to win set no boundaries for success. I believe their success will inspire many companies to strive for higher export volumes next year."

Mark Barry, President, Tyco Fire & Security Asia, said, "We are honored to win the Export Accomplishment Award for USD 5 Million dollars from the Korea government for the second consecutive year. The award recognizes our commitment, efforts and contributions in bringing Korea exports to our customers around the world. As a world leader in providing integrated life-safety solutions to the marine industry, we leverage on our expertise and network to offer innovative fire protection solutions to global customers, who can enjoy the same well-known products as enjoyed by our customers in Korea."

Tyco Marine Services Korea exports leading fire protection and life-safety products to Fortune 500 companies in major oil refineries and shipyards industries in USA, Europe and other countries. Its extensive range of systems include sprinkler systems, local application water mist systems, deck foam and machinery space hot foam solutions, dry chemical systems, gaseous extinguishing systems.

Tyco Marine Services Korea is part of Tyco Fire & Security, the world's largest provider of life-safety solutions for the marine industry worldwide.
